

Storage and Handling

Confiad Adhesive is flammable and can be dangerous if used improperly.

Avoid skin and eye contact.

In case of eye contact, flush with water for 15 minutes and get medical attention.

Keep away from sources of ignition.

Before use or handling, consult the appropriate Material Safety Data Sheet.

Store the adhesive in a cool place away from direct sunlight.

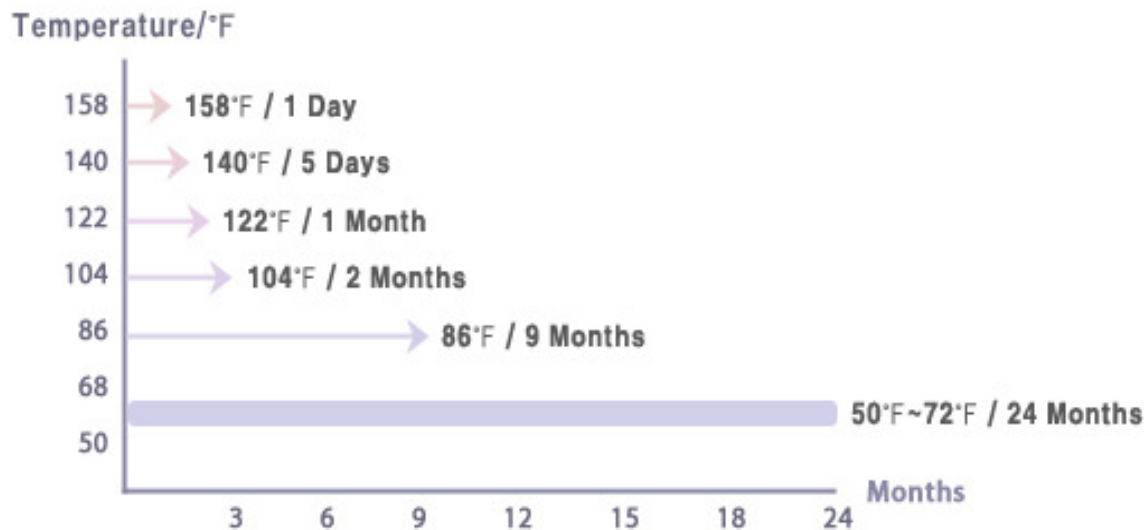

High temperature will reduce the shelf life of adhesive.

Refrigeration is an acceptable means to increase storage life,

However, freezing should be prevented.

Shelf life tests are based on constant temperature storage between 61°F(16°C) and 75°F(24°C)

Shelf Life vs Storing temperature

This Technical Bulletin is intended to provide guidelines for optimal fabrication, and performance of Confiad adhesives mentioned. Though the information contained herein is deemed reliable, none of the contents--including but not limited to the instructions, techniques, graphics, and recommendations--is to be understood as implying legal liability of fitness for a specific purpose, any other type of warranty, or being complete or absolute in its range and nature of information. Depending on the user's particular application, all necessary measures must be taken to verify and test the adequacy for such needs or application. Any information or recommendation herein is strictly for purposes of reference and as such, Jin Gwang Industry Co., Ltd. assumes no responsibility for its suitability or accuracy or the use of such information for products other than Confiad adhesives.
